For our patients with PPO dental insurance

We are high-quality dental specialist office, we choose to be not in-network with any dental insurance companies. While this may initially appear to be a more expensive option, there are significant advantages and more value in long run:

1. Our decision to not contract with insurance companies enables us to allocate more time to each patient, allowing us to pay meticulous attention to every detail. Additionally, it allows us to utilize top-tier dental labs and high-quality dental materials, resulting in more aesthetically pleasing and longer-lasting outcomes. Most, if not all, of our patients find our approach to be more valuable and cost-effective in the long term
2. If you have PPO dental insurance, we can still help claim and use your insurance benefit. As of 2023, patients with Plus or Premier level dental PPO insurance, such as Merck or UPenn MetLife PDP PLUS, Johnson & Johnson Aetna, or Delta Dental Insurance Premier, will incur no copays for basic dental care services like X-rays, exams, and dental cleanings.
3. With our high-quality dental care, patients can see the precision, comfort, efficiency and overall effectiveness of the treatments provided by Dr. Qing,

Dedicated to life-long oral health, esthetics, and general wellbeing

Dr. Idahosa, and Dr. Yang. Patients can expect treatments that are notably accurate, comfortable, involve considerably less pain, fewer errors, and minimal need for revisions. This not only ensures optimal results but also saves patients a substantial amount of time and discomfort.

For our patients without PPO dental insurance

We provide options for payment plans and offer discounts to assist you in attaining optimal dental health, particularly if you are a senior, veteran, or a community worker (such as police officers, firefighters, and public school teachers, etc.). Your commitment to serving the community is greatly valued, and in return, we are here to support you.
